Portfolio | GitHub | LinkedIn

Professional Summary

Information Science and Engineering student graduating in 2027, targeting Software Engineer and Full-Stack Developer roles. Strong foundation in Java, Data Structures & Algorithms, and Object-Oriented Programming. Experienced in backend REST API design, system integration, microservices, and web development using Node.js, Express.js, MongoDB, React.js, and Python.

Technical Skills

Languages: Java, Python

Core Concepts: Data Structures & Algorithms (Java), Object-Oriented Programming, REST APIs, System Architecture, CRUD Operations

Frontend: HTML, CSS, JavaScript, React.js, Bootstrap, EJS

Backend & Databases: REST APIs, Node.js, Express.js, MongoDB, Mongoose, SQL, Spring Boot (simulation)

Tools & Platforms: Git, GitHub, VS Code, Postman, Kafka (simulation)

Projects

WanderLust — Full-Stack Accommodation Listing Platform
Full-Stack Web Application — *Node.js, Express.js, MongoDB, EJS, Bootstrap*

- Engineered RESTful CRUD routes with Node.js and Express.js, integrating Joi validation and MongoDB persistence to improve API throughput by 20%.
- Modeled relational schemas with Mongoose references and population, implementing cascade review cleanup on listing deletion.
- Connected dynamic EJS views with backend operations and implemented centralized asynchronous error handling.

NeuroShield AI — AI-Powered Cyber SOC & Threat Detection Command Center
Major Project | Security Analytics Platform — *React.js, Three.js, Web Audio API, Python, Tailwind CSS*

- Engineered a high-density 65/35 dual-mode SOC command center featuring real-time 3D threat topology and time-travel forensic playback.
- Built a multi-modal detection engine for network anomalies, voice deepfakes (MFCC analysis), and visual QR/receipt phishing with Explainable AI (XAI) transparency.

Work Experience

Frontend Developer Intern — September 2025 – November 2025
InLighnX Global Pvt Ltd — *Bengaluru, India*

- Built responsive dashboard components using HTML, CSS, and JavaScript, optimizing rendering behavior across screen sizes.
- Resolved frontend UI rendering defects and structured dynamic components for seamless backend REST API integration.

Education

Don Bosco Institute of Technology — Bengaluru, India
B.E. in Information Science and Engineering | CGPA: 7.66/10 — *2023 – 2027 (Expected)*

Vagdevi PU Science Independent College — Bagalkot, India
12th / Pre-University Education | 89% — *2021 – 2023*

Shri Veerabhadreshwara High School — Halagali, India
10th / Secondary Education | 78.89% — *2020 – 2021*

Certifications

- Data Structures & Algorithms in Java – Apna College (August 2024)
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate (October 2025)
- Software Engineering Job Simulation – J.P. Morgan via Forage (September 2025)
- Technology Job Simulation – Deloitte Australia via Forage (November 2025)
